TO WHOMSOEVER IT MAY CONCERN

This testimonial is issued to **Miss. Dr. ROOPA SESHADRI** based on my assessment of her for a period of 1 year and 4 months from September 2012 to January 2014, while she was working with me as Assistant Professor in Interventional Neuroradiology, in the Department of Neuro Radiology at Sri Ramachandra Medical College, Sri Ramachandra University, Porur, Chennai.

During her tenure here as a consultant, she had shown keen interest in interventional neuroradiology and was involving with me as an Assistant and Colleague in all varieties of neuro interventional procedure and showed her competence and skills. She had performed most of the simple and complex neurointerventional procedures under my guidance which includes embolisation of brain aneurysm, stent and balloon assisted coiling, Flow Diverter treatment, AVM embolisation using Onyx and routine vascular procedures such as tumor and CCF embolisation. Apart from this, she had shown keen interest in pre and post procedure and critical care in these patients.

In addition, she is committed and had keen interest in academic activities and had guided few senior and junior residents in the department.

Department of Neurointervention at SRMC, a JCIA & NABH accredited hospital and has the admission rights with outpatient & Inpatient care and independently managing all patients requiring neurointerventions. She was a part of the team and actively involved in all outpatient and Inpatient care, pre intra & post procedure care and capable of handing all patient care activities.

She is capable of handling all neurointerventional procedure independently and will be an asset to any institution with similar infrastructure.

I wish her all success.

Dr. SANTHOSH JOSEPH
MD
Senior Consultant – Clinical Lead –
Neuro Interventional Radiology
Department of Neuro Interventional
