Dear sir,
I was affected with paralysis stroke last year 30th July24 I was admitted into Saakra hospital & treated by Dr Ami Kulkarni was hospitalized under his guidance for complete 8:days, but I got discharged without any results.
I was continued to do physiotherapy for further 2 months, but there was no improvement & then myself & my husband been to st.maary hospital for paralysis & disability at Karwar, we have visited 3 times but there was only minimal improvement not very much progress & during Dec"24 I was under gone Angiogram but dr didn't suggest about any stunting.
Later after 8 months, through reference from one of my friend Dr Sneha Latha,we met Dr Roopa & with all my medical records & investigations & thorough guidelines of Dr Roopa, suggested for stenting, i had CKD issues for 4 years, so Dr Roopa has taken all types of precautions & Dr Sushma opinion to under go for stunting.

Post stunting, there was good progress in my walking & shoulder movements, gradually with medication & physiotherapy, there was good amount of improvement & now I am able to work myself independently.

Me & my husband will be thankful & grateful to Dr Roopa for her tremendous experience as Interventional radiologist, helping many patients like me.She will be remembered for ever.

Thanking you,
Regards,
Suma Latha
